Section 2, User Page, Visitor View

IM user:
Opens an IM session with the user. Has an over-state and/or a tool tip stating "IM [username]".

Use of Possessives:
In the visitor views, the possessive (My) are removed.

Visitor view of user options:
Pulldowns set by the user in the user view show only the selected state to the visitor.

Add as Friend:
Adds the user to the visitor's friend list. Adding a user as a friend does not add the visitor to the user's friend list, though the user should have some way of seeing who has added them as friends. Has an over-state and/or a tooltip stating "Add [username] as a Friend" Once the user is added as a friend, the icon disappears. Friend removal is done through the friend list.
